

IN OUR VET PRACTICE WE CARE DEEPLY ABOUT THE WELL-BEING OF YOUR PET.

When needed, we use **The ArmOR Hand Handling Gloves** to safely and properly restrain your pet. This does not mean your pet is bad! They are not - we just may have to examine an area that may be sensitive or your pet is fearful at the vet.

The ArmOR Hand Animal Handling Gloves are not bulky so we never have to use excessive force. The gloves are machine washable so when we handle your pet, we are using a clean pair of gloves to decrease disease transmission.

MORE FEELS. LESS FORCE.
